Premium Industrial Abrasives

EXPERTLY MANUFACTURED SOLUTIONS FOR BULK BUYERS

DEERFOS EMERY BELT

Deerfos Emery Belts are high-quality abrasive belts designed for smooth, efficient, and consistent sanding and finishing. They are suitable for applications on metal, wood, stainless steel, and other materials where reliable surface preparation and finishing are required.

Made with durable abrasive grains and a strong backing, Deerfos Emery Belts provide good cutting performance, uniform finishing, and longer service life. They are widely used for grinding, deburring, polishing, rust removal, and surface finishing in industrial and workshop applications.

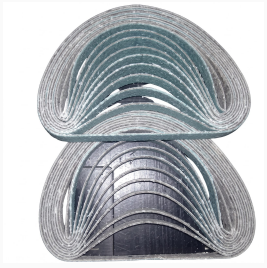

Deerfos Emery Belt PZ628 50*2000

High-quality Deerfos emery belt designed for industrial grinding and finishing. Features superior grain bonding technology for longer lifespan and consistent performance.

Specifications:

- Size: 50mm x 2000mm
- Grit: PZ628
- Brand: Deerfos
- Ideal for: Metal grinding, surface finishing
